St Paul's Cathedral

St Paul's is the Cathedral church of the diocese of London, which it has served for over 1,400 years. The current building has become a potent symbol of the life of a nation and is one of the world's most beautiful buildings. Designed by Sir Christopher Wren in the late seventeenth century, its stones have absorbed the hopes, fears, sorrows and joys of generations and stand as an enduring symbol of our communion with those gone before and those still to come.
