

Make a Phoenix

If you have a printer you could print out the picture below and **colour it in**.

You might find some colourful paper at home that you could use to stick on and **make a collage** with bright, flappy, feathery wings and a fiery nest.

A Phoenix is a mythical bird who rises to new life from a burning nest.

Maybe you could think of your own magnificent, majestic, mythical creature and make a model of it.

Think about what you might need and ask your adult at home for: empty boxes, cartons or bottles, coloured paper or card, pictures from old magazines, old pieces of fabric, glue or tape and scissors.

Would it have special powers? Would it be furry or feathery? Would it be fierce or fantastical?

Share a picture of your creation with us @stpaulsedu.

We look forward to welcoming you to St Paul's Cathedral soon!
